

Artist 12 Pro

Creative Power is on Your Side.

- ▶ Features a super-portable screen with an 11.6-inch display area and a convenient 3-in-1 cable design. There's no need to use any adapter and it quickly connects to your computer. Start sketching, doodling, and drawing directly on Artist 12 Pro and begin your creative journey.
- ▶ The Artist 12 Pro includes a sleek Red Dial interface that can be programmed for more customization options. Compared to the Artist 12's slim touch bar, it's easier to control accurately and with more freedom with the 12 Pro's dial wheel.
- ▶ The 11.6 inch fully-laminated FHD Display creates a distraction-free working environment, and with virtually no parallax, your cursor appears exactly where you want it, offering a real paper-like feel while drawing.
- ▶ The XP-PEN Artist 12 Pro supports up to 60 degrees of tilt function, so now you don't need to adjust the brush direction in the software again and again. Simply tilt to add shading to your creation and enjoy smoother and more natural transitions between lines and strokes.

Specifications

Dimensions	351.52 x 225.38x12.9mm
Display Area	256.32 x 144.18mm
Display Resolution	1920x1080
Color Gamut	72% NTSC
