

Interactive flat panel Avtek TS 8.1 Easy 65 with Android

Code: 1TV388

Avtek TS 8 Easy is an interactive monitor that allows you to operate Windows-based devices. Modern versions of systems from Microsoft are equipped with a lot of facilitation and functionality for touch control, making operation extremely easy and intuitive.

Video conferencing applications such as Teams and Zoom allow you to conveniently manage your meetings without the need for a keyboard or mouse. Move the meeting to a large, touchscreen monitor and use aids such as the built-in interactive whiteboard feature.

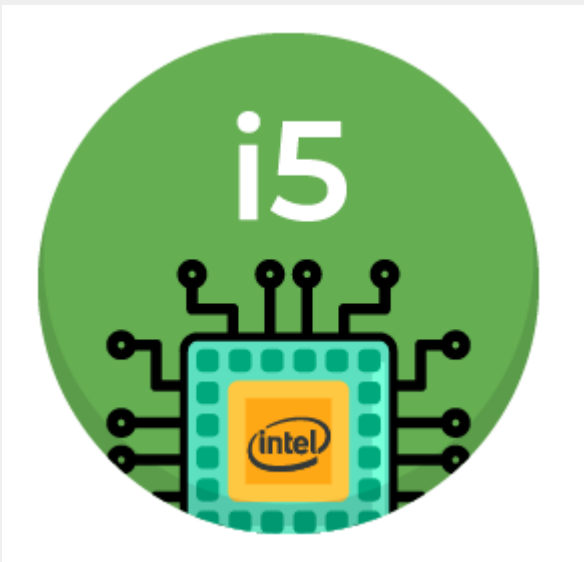

The system writing board will find application in education, especially in remote classes using the Teams application. Easily collaborate to create unique notes that can be conveniently shared with students. Free Microsoft Whiteboard software is available for download from the Microsoft Store.

Conducting presentations from an interactive monitor is extremely convenient, as the application allows you to change slides or add notes without having to go to your laptop.

Displaying graphs, tables, reports, and data on a large screen allows for better interpretation and facilitates discussion based on the results presented.

TS 8 Easy monitors are equipped with two 10W speakers that provide the desired sound without the need for external amplification.

Interactive monitors are modern teaching aids that meet the diverse needs of schools. Interactive monitors from the Easy series work with Windows computers. This can be a desktop computer, laptop, or OPS module that is installed inside the monitor.

The connectors are located on the left side of the monitor.

	<p>Security is ensured by a monitor version without an operating system, which eliminates the risk of leaving sensitive data on the monitor.</p>
<p>The monitor can be activated with Android 11.0 (requires purchase of a separate product).</p>	

NOTE: AVTEK TS 8 EASY MONITORS ARE NOT DESIGNED FOR HORIZONTAL USE (INTERACTIVE TABLE MODE).

Note! The monitor does not have a built-in operating system. For full functionality, an external computer must be connected or an OPS module must be installed.

Specification

Series	Easy
