

## Interactive flat panel Avtek TS 8.1 Easy 86 with Android

Code: 1TV390

Avtek TS 8.1 is an interactive monitor that supports Windows-based devices. Modern versions of Microsoft systems are equipped with many features and functionalities for touch control, making operation extremely simple and intuitive.

Video conferencing apps such as Teams and Zoom allow you to conveniently manage meetings without having to use a keyboard or mouse. Transfer your meeting to a large touchscreen monitor and use features such as the built-in interactive whiteboard.

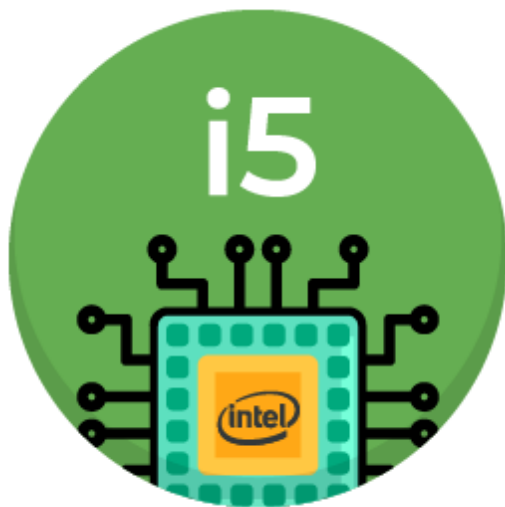

The system whiteboard can be used in education, especially during remote classes, with the Teams app. Easy collaboration on creating unique notes that can be conveniently shared with students. Free Microsoft Whiteboard software is available for download from the Microsoft Store.

Conducting presentations from an interactive monitor is extremely convenient, as the application allows you to change slides or add notes without having to go to your laptop.

Displaying graphs, tables, reports, and data on a large screen allows for better interpretation and facilitates discussion based on the results presented.

TS 8 Easy monitors are equipped with two 10W speakers that provide the desired sound without the need for external amplification.

Interactive monitors are modern teaching aids that meet the diverse needs of schools. Interactive monitors from the Easy series work with Windows computers. This can be a desktop computer, laptop or OPS module that is installed inside the monitor.

The connectors are located on the left side of the monitor.

Security is ensured by a monitor version without an operating system, which eliminates the risk of leaving sensitive data on the monitor.

The monitor can be activated with Android 13.0 (requires purchase of a separate product).

**NOTE: AVTEK TS 8 EASY MONITORS ARE NOT DESIGNED FOR USE IN A HORIZONTAL POSITION (INTERACTIVE TABLE MODE).**

**Please note! The monitor does not have a built-in operating system. For full functionality, an external computer must be connected or an OPS module must be installed.**

## Specification

Series	Easy
Display size	86"
System	Android 13
Panel	IPS
Aspect Ratio	16:9
Viewing Angle	°

Brightness	400 cd/m <sup>2</sup>
Response time	ms
RAM	4GB
ROM	32GB
Working time	24/7
Touch technology	Infrared
